

Board-to-Board Socket Assembly [B2B]

Board-to-Board Socket Assembly [B2B]

1. PCB
2. Plastic Load plate w/ Spring Load
3. Support Plate
4. PariPoser® Elastomer

Board-to-Board Socket

- Socket for connecting two PCBs, using a plane-to-plane overlap.
- PariPoser® elastomer contact between two PCBs.
- Requires mounting and alignment hole features in the PCBs.

The Paricon Board-to-Board connector allows for a solderless detachable connection with a short signal path between two PCBs.
